Ce répertoire international est réalisé à l'occasion de la journée professionnelle consacrée au documentaire scientifique : « Documentaire : science, le nouvel horizon », organisée le mercredi 5 octobre 2016 à la Cité des sciences et de l'industrie, à Paris.

C'est un guide pratique, à l'usage des producteurs français, qui identifie, dans 20 pays, les différentes chaînes et cases de diffusion dédiées à la science, ainsi que les principaux contacts.

**Les producteurs de l'USPA, du SPI et de l'AST remercient chaleureusement tous les intervenants qui se sont mobilisés pour la réalisation de ce guide, ainsi que l'ensemble des partenaires qui l'ont rendue possible.**
